Pam and Steve: Based on our discussion, here is my first draft at a response to the reporter. Let me know if we can provide information on penalties EPA may have imposed on CRW. This would address his question: "Have there been any sanctions handed down regarding this?"

Please edit as needed.

Bill – As always, I am open to your suggestions.

**Reporter** Wallace McKelvey, Harrisburg Patriot News (Pennlive.com)

**Inquiry:** I'm following up on this letter from last April in which you cited deficiencies in Harrisburg/CRW's response to sewer overflows and demanded additional remediation to reduce sewer discharges.

What has been done since then? What was CRW's response, if any? Have there been any sanctions handed down regarding this?

Also, I'd appreciate the most updated information you have on the amount of combined sewage being discharged per year or per month. According to this letter, in 2019 the CRW discharged 900 million gallons...

One more thing: If you happen to have CRW's Chapter 94 report handy (it usually is submitted each year on Mar. 31 but I can't find it any of the usual places online), I'd appreciate if you could send it my way. Here's a link to last year's.

**DRAFT EPA Response:** **Ex. 5 Deliberative Process (DP)**

Hi Terri, Steven and Pamela,

I'm following up on this letter from last April in which you cited deficiencies in Harrisburg/CRW's response to sewer overflows and demanded additional remediation to reduce sewer discharges.

What has been done since then? What was CRW's response, if any? Have there been any sanctions handed down regarding this?

Also, I'd appreciate the most updated information you have on the amount of combined sewage being discharged per year or per month. According to this letter, in 2019 the CRW discharged 900 million gallons.

I'll be filing a story tomorrow morning. I'd appreciate a response this afternoon.

Thanks!
